BDJ's total supply is capped at 2.5 billion tokens. The tokenomics setup is as follows:

- 40% (1 billion) reserved for presale investors.

- The remaining 40% (1 billion) will be split equally between development, liquidity, marketing, and ecosystem growth.

Billion Dollar Jackpot (\$BDJ) Presale

At present, Billion Dollar Jackpot (\$BDJ) is under presale stage. BDJ tokens are available through the project's presale at a discounted price of \$0.0075. This is a limited-time opportunity for early investors to buy BDJ tokens before they hit public exchanges.

The presale has already raised over \$610K, indicating decent investor interest. This early success suggests BDJ is poised for growth in the coming months. After the presale ends, there will be a Token Generation Event (TGE). Following the TGE, investors can claim their BDJ tokens, after which the developers plan to list the token on DEXs - and potentially CEXs further down the line.
