## How To Play Binance Crypto Wodl?

These are the basic steps you need to take to play Binance Crypto Wodl:

- Start by creating a Binance account. Verify your identity thoroughly.
- To continue, simply go to your freshly made account, log in, and then select More.
- Next, find the Wodl option and click on it. One alternative is to go straight to the Crypto Wodl website.
- To be eligible for a game, you must click on the right crypto/blockchain-related word.

Once you've logged in, you'll see that the gameplay is very similar to the famous Wordle game. The letters you've already thought of must be filled in first. After that, you'll be able to tell if a character tile is part of the final word or if it's in the wrong box since it will be highlighted with a different colour. Presented here is the Wodl colour key:

### **Green**

It is the correct place for this letter. Well done!

### **Yellow**

The letter is there, but it doesn't belong where it should in the word. To see if you can uncover a hint, try rearranging the letters.

### **Black**

You're missing a word there; that's just a letter. That ought to be changed.

Every day, you'll get a new response and you're only allowed to play and guess two words. Keep in mind that you have a total of six chances to guess the right word. After you've lost once, you won't have another opportunity to respond. If those two opportunities were unsuccessful, you will need to attempt again the following day.
