What is the CUTO Token?

\$CUTO functions as the core utility token within the Cutoshi ecosystem. As the main currency of Cutoshi, CUTO will be used to help learn the Academy's trading, trading discounts on the DEX, discounting goods, and facilitating buy-and-burn mechanisms.

Besides, \$CUTO embodies the ethics of Satoshi Nakamoto and Bitcoin, with a cap and deflationary nature. The burn mechanism accelerates this process by reducing the number of tokens in circulation. The more deflation, the higher the value. This is in contrast to fiat currencies, which are constantly depreciating due to inflation and money printing.
