Have you already signed up to become a member of the CEO community in the Telegram game Hamster Kombat social clicking? If not, there's still time before the announcement of the Hamster Kombat airdrop. The strategic gameplay is the subject of numerous rumours and discussions, but it is already known that the Hamster Kombat coin will be released on the TONNE network.

The desire for Telegram currencies has been the subject of a lot of discussion lately. Adds Hamster Kombat to the team. But how much will the Hamster Kombat cost? When will the Hamster Kombat currency go live and go public? The mystery behind the forthcoming Hamster Kombat airdrop, listing date, and anticipated price of Hamster cryptocurrency is lifted in this post. Now let's get started!

What Is Hamster Combat?

A popular tapping game on Telegram, Hamster Kombat is similar to its forerunner, the Notcoin clicker game. Playing as the head honcho of a made-up cryptocurrency exchange, each player must conquer 10 levels to elevate their startup to the pinnacle of their field in Hamster Kombat. In the hilarious and strategic Hamster Kombat Telegram game, you may earn virtual currency in a variety of ways, such recruiting friends, finishing tasks, joining the Hamster Telegram group, mining, boating energy, etc. Player anticipation is already high because to the TONNE networks' upcoming debut and airdrop of the Hamster Kombat coin.

With the launch of Hamster Kombat Telegram, a native token called HMSTR was introduced. The airdrop will be revealed in July of 2024, and the listing is set for June of the same year.

How does the Hamster Kombat Work?

For the record, Hamster Kombat is a bot that runs on the Telegram platform. When you initiate its launch, you assume the role of chief executive officer of your virtual cryptocurrency exchange. In this exchange, you can acquire Hamster Kombat coins (HMSTR) through the completion of quests, the invitation of friends, mining, and the completion of several activities suggested by the bot.

The Hamster Kombat bot asks you to choose an exchange where you can make passive cash from in-game mining when you start it up. In order to acquire coins by tapping on your device's s

You have a certain amount of energy to tap on your device's screen in order to earn money in the game. You can manually adjust the energy, and it's renewable.

Ten challenging levels await your hamster in Hamster Kombat, a game available on Telegram. If you want to unlock more levels, you have earn more coins. Your progress rate is directly proportional to the amount of coins you acquire through mining or screen touching.

One of the strangest aspects of Hamster Kombat is the daily combo. You will receive 5 million in-game Hamster coins after you discover the combination of three cards in your exchange. In order to get the reward, you have to purchase or enhance certain cards. You can earn 5 million coins per day because the combination changes every 24 hours.

Hamster Kombat Coin Price Prediction 2024

The market capitalization of HMSTR is approximately \$82.9 million as of mid-June 2024, when the price is \$0.00008289.

According to the Hamster Kombat Coin price forecast, the token price might range from \$0.05 to \$0.10 in the next three to six months, with a possible mid-term aim of \$0.55 in six to twelve months.

With a substantial following on Telegram, the project has 148 million users and 40 million active gamers per day. Although the project is now in the process of establishing and growing its ecosystem, no particular long-term pricing forecasts have been made.

Is Hamster Coin a Good Investment?

We are seeing a Bearish emotion based on our technical indicators, and the Fear & Greed Index is showing 74, which indicates greed. There was zero percent price volatility and thirty consecutive green days for hamsters in the past 30 days. Now is not a good moment to purchase Hamsters, according to the forecast. Caution: Do not consider this as investment advice.

Could I earn money using the Hamster Kombat Airdrop?

Notcoin was listed successfully, and active users made a profit, as is already known. Is the Hamster Kombat airdrop going to be any different? We can find a way to do it.

The tapping game that is played over Telegram has some rumours going around. We expect \$HMSTR to become public at some point. But how much money and prizes are up for grabs in this game?

To start, unlike Notcoin, the Hamster Kombat airdrop is not based on your balance but rather your account level and passive income. Because of this, there is no use in hoarding coins; instead, you should upgrade your account right away with the coins you already have.

The second point is that the rumour mill has it that players would have to wait two years before they get their hands on the cryptocurrency. It stands to reason that the price won't plummet right following a potential listing. Maybe nobody will be around in two years. In due time, the remaining "whales" will systematically acquire all of your "hard-earned money" at rock-bottom prices.

Furthermore, regarding the third point, the creators of Hamster Kombat remain a mystery. Will the Hamster developers be able to handle the deluge of complicated jobs that await them, given that the Notcoin team was well-known prior to the clicker's introduction and had a track record of successful projects?
