How to Buy Pepe Unchained (PEPU)?

Original:

<https://www.btcc.com/en-US/academy/research-analysis/how-to-buy-pepe-unchained-pepu?>

[Pepe Unchained](#) (\$PEPU) presents a special chance to profit from the craze for meme coins as well as the advantages of faster and less expensive L2 blockchain technology. The project is now holding its presale, which is a thrilling chance to get [\\$PEPU](#) tokens at a reduced cost.

Let's now examine how to purchase \$PEPU coins prior to their listing on exchanges and increased usage! Purchasing \$PEPU tokens at the outset not only entitles you to future price hikes but also integrates you into the community from the beginning.

You'll be able to influence the project's future and be fully informed about its progress in this way. Purchasing the coin before it becomes available on larger exchanges can benefit you monetarily and in terms of community involvement.

The screenshot displays the Pepe Unchained website interface. At the top, there is a navigation bar with links for Staking, About, How To Buy, Tokenomics, Roadmap, FAQs, and White Paper. A red banner below the navigation bar contains breaking news: "BREAKING: PEPU! EXPERTS SAY PEPE UNCHAINED DOUBLE STAKING REWARDS = 100X THE LOLZ SPEPU IS MORE THAN A MEME COIN. BUT A MEME ECOSYSTEM. PEPE L2 LAUNCHES AT THE END OF FEBRUARY".

The main content area features a large blue "Buy \$PEPU Presale" widget on the left. This widget includes a countdown timer showing 01 Days, 13 Hours, 12 Minutes, and 26 Seconds. Below the timer, it states "UNTIL NEXT PRICE INCREASE \$2,270,237.04 / \$2,491,138". It also shows "YOUR PURCHASED SPEPU = 0" and "YOUR STAKEABLE SPEPU = 0". Payment options for ETH, USDT, and CARD are available. A "Connect Wallet" button and a "Buy With BNB" button are also present. The widget is powered by Web3Payments.

To the right of the widget, the text reads "PEPE NOW HAS HIS OWN BLOCKCHAIN!" in large green letters. Below this, a congratulatory message says: "Congrats! You're early to the party! Buy and Stake now during Presale to max out your rewards before the price skyrockets!".

Underneath, the "Pepe Unchained" logo is shown with the tagline "Better speed. Better gains. Same delicious Pepe flavor." A list of features includes: "Instant bridging between ETH and Pepe Chain", "Lowest transaction fees", "Higher Volume Capacity — 100x faster than ETH", and "Dedicated Block Explorer".

A "WTF IS \$PEPU?" section contains a "Learn More" button with a right-pointing arrow. To the right of this section is a cartoon illustration of Pepe the frog, depicted as a prisoner with a brain icon on his head and yellow chains around his neck and waist. A speech bubble next to him says: "PEPE WAS A PRISONER, CHAINED TO HIS OLD, CLUNKY LAYER ONE SERVER ROOM UNTIL...". Above the illustration, it says "REWARDS P/A 839%".

Key Takeaways

These are Pepe Unchained's main lessons to remember:

Meme Coin plus Layer 2 Blockchain: Pepe Unchained, a meme coin, makes use of the well-known cartoon figure "Pepe the Frog," a hugely popular online meme that has become widely known in the cryptocurrency industry. In addition to having a fun logo, Pepe Unchained is unique among Layer 2 blockchains. Compared to conventional Layer 1 blockchains like Ethereum, it can provide significantly lower transaction fees and faster processing times thanks to this technology. Thanks to these improvements, Pepe Unchained is now more than just a cultural token—it's a useful option for users looking for blockchain transactions that are affordable and efficient.

Presale still continuing on: Pepe Unchained is holding a presale for \$PEPU tokens at a price of \$0.008032. Pepe Unchained gives tokens to the general public at a steep discount during its presale, which occurs prior to the project going online and obtaining exchange listings. It attempts to create an early, enthusiastic group of supporters and generate money for the project's development.

Tokenomics: Through presale and staking rewards, half of \$PEPU's 8 billion supply is set aside for the general public. The remaining funds are allocated among marketing, liquidity, L2 inventory, and the team to guarantee the seamless functioning of the project.

Creating an ecosystem: Pepe Unchained is concentrating on long-term development, offering the cryptocurrency market technology that facilitates user interaction with the Web3.

How to Buy Pepe Unchained (PEPU)?

In the current presale stage, you can purchase Pepe Unchained by following these steps. No experience is necessary; the procedure is simple and takes no more than a few minutes. All well, then, I will begin.

Step 1: Establish a Compatible Wallet

The first step is to create a cryptocurrency wallet. Wallet Connect, Best Wallet, MetaMask, and Coinbase Wallet are the ones we suggest because they are extensively used and endorsed by the project.

The next step, after selecting a wallet, is to install the programme. To install the wallet on your computer, tablet, or smartphone, visit the official website or search for it in an app store. An add-on for the Chrome web browser is available as well.

After the installation is complete, go ahead and create an account. You can avoid disclosing sensitive information by using a self-custodial wallet. You just need to create a personal identification number (PIN) and jot down your private key, a 12-word phrase that is extremely important and should be stored safely. You risk losing access to your cryptocurrency holdings if you misplace this phrase.

[TRADE_PLUGIN]PEPEUSDT,BTCUSDT[/TRADE_PLUGIN]

Step 2: Add Coins That Support Your Wallet

The next step, after configuring your wallet, is to fund it. You can use Ethereum, Bitcoin, and Dogecoin during the Pepe Unchained presale.

You can use your wallet or a centralised cryptocurrency exchange (CEX) like Binance or Coinbase to buy any of the supported coins. All it takes to acquire cryptocurrencies on the CEX is a visit to the exchange website, account creation, fiat deposit, cryptocurrency selection, amount input, and transaction completion. The coins will be sent to your wallet address once you make a purchase.

[TRADE_PLUGIN]PEPEUSDT,BTCUSDT[/TRADE_PLUGIN]

Step 3: Link Wallet to the Website for Pre-Sale

Visiting the Pepe Unchained presale page is the next step. A widget is prominently displayed on the homepage. A number of wallet providers will appear when you choose the “Connect Wallet” option. Pick the one you possess.

You can now access the Pepe Unchained presale with your wallet. Now we can get down to the nitty-gritty of purchasing \$PEPU.

[TRADE_PLUGIN]PEPEUSDT,BTCUSDT[/TRADE_PLUGIN]

Step 4: Complete the Pepe Unchained Presale Investment

To buy \$PEPU tokens with another cryptocurrency, go to your wallet and choose the coin you wish to exchange. Choose an investment amount after you've made your selection. In the current presale round, 1 \$PEPU is worth \$0.008032. For 1 ETH, you can receive 427,819 \$PEPU tokens, for 1 BNB, 71,773 \$PEPU tokens, and for 10 USDT, 1,250 \$PEPU tokens are available.

If you choose to pay with BSC (Binance Smart Chain), keep in mind that you will not be able to participate in staking rewards. On the other hand, if you use Ethereum, you are eligible for staking rewards, which provide a return of 11,196% every year. So, if you want to stake \$PEPU tokens and make passive income, Ethereum is the way to go.

Please verify your purchase now. A permission request for the purchase will appear as a notification on your phone. Your presale purchase will be confirmed once you do this. Upon completion of the presale and launch of the token, you will have the opportunity to redeem these tokens. Click "claim" after you've reconnected the wallet you used to purchase PEPU tokens. You may start staking your coins to increase your gains even though you can't claim your PEPU just yet.

What is Pepe Unchained(PEPU)?

Pepe Unchained aspires to be the meme coin of the future by capitalising on the viral video of Pepe the Frog. The initiative capitalises on the popular meme to develop a strong presence in the market by claiming to be an improved version of the original Pepe.

Pepe Unchained, on the other hand, is an ecosystem that revolves around meme coins. In addition, it makes use of a Layer 2 blockchain, which allows for cheap, instantaneous transactions and the possibility of enormous gains.

At times of heavy demand, L1 blockchains like Ethereum encounter congestion, which slows down transactions and increases costs. L2 solutions address these problems by lowering the burden on the main Ethereum chain and processing transactions off-chain, which allows for faster and cheaper transactions.

Pepe Unchained is an Ethereum-based platform that allows users to stake and trade at lightning speeds with far cheaper petrol prices than the L1 network. Users of Pepe Unchained can take advantage of huge staking rewards—as high as 9,441% per annum—thanks to the platform's enhanced efficiency and decreased operational costs.

[TRADE_PLUGIN]PEPEUSDT,BTCUSDT[/TRADE_PLUGIN]

Why Purchase Pepe Unchained(PEPU)?

I think Pepe Unchained might be a great cryptocurrency presale investment this year. Let's have a look at why.

Meme Coin Frenzy

From the beginning of the upswing in Q3 of 2023 all the way up until March of this year, meme coins have been the undisputed winners. Meme coins have the highest average returns of any narrative, accounting for 1312% of all profits, according to a survey by CoinGecko.

The outcome is a market cap of about \$50 billion for meme coins, an industry that has grown exponentially. Interest in this entertaining and potentially profitable story is driving the continued climb in the number and value of meme coins on the market.

Market attention is a key component in driving a token's value, and \$PEPU takes use of the internet meme's popularity to do just that. This puts you in a prime position to benefit from the meme coin renaissance.

[TRADE_PLUGIN]PEPEUSDT,BTCUSDT[/TRADE_PLUGIN]

Great Rewards

With the help of L2 technology, PEPE Unchained (\$PEPU) can provide twice as much in rewards for staking. Early stakers, in particular, stand to gain a great deal by locking up tokens to aid with blockchain security. Staking by presale buyers is likely to yield the highest rewards because the reward % tends to decline as the number of stakers increases.

Faster and cheaper transactions made possible by its efficient L2 cut operational costs and increased profitability. This guarantees that users keep the majority of their income and also makes

double staking payouts possible for Pepe Unchained.

[TRADE_PLUGIN]PEPEUSDT,BTCUSDT[/TRADE_PLUGIN]

Getting Ready for the Future

Rather of concentrating on immediate gains, Pepe Unchained has laid out a strategy for the future. The first step is to include Pepe Unchained into a future that is ultra-based. Its cutting-edge L2 protocol will incentivize users to spread the word about blockchain technology.

Project managers have allocated substantial funds to back these goals: 30% of tokens will go towards community benefits via staking, 10% will go towards facilitating trades on DEXs, and 20% will go towards expanding Pepe's reach around the world.

Apart from that, 20% of the \$PEPU supply is reserved for presale participants, 10% is for continuing operations, and 10% is for developing the \$PEPU Layer 2 chain. These distributions are made to guarantee the expansion and longevity of the project, and there are a total of 8 billion tokens available.

Conclusion

Combining the meme coin narrative's pricing potential with the utility of a layer 2 blockchain, Pepe Unchained presents a lucrative prospect, as we discussed above. Early stakers and presale investors can take advantage of the incredibly high profits offered by \$PEPU.

The PEPE Unchained (\$PEPU) presale is a great chance to increase your pace, have fun, and make twice as much money!

About BTCC

BTCC is a leading cryptocurrency trading platform that is distinguished by its ability to balance the simplicity of use with advanced features. It provides a comprehensive educational program through the BTCC Academy, 24/7 customer support, and robust security to both novices and experts. BTCC is a top choice for digital asset investors due to its emphasis on user contentment, which fosters a secure and informed trading environment across a variety of cryptocurrencies.

BTCC is one of the few exchanges in the market that offers high-leverage options for investors and concentrates extensively on futures trading. Users have access to more than 300 USDT-margined perpetual trading pairs, which encompass numerous prominent altcoins and meme-coins. Additionally, the platform has recently implemented spot trading to facilitate novice users who may not be acquainted with futures trading.

- **Established Reputation:** BTCC is one of the oldest and most well-known cryptocurrency exchanges, having been operational since 2011. Its history in the market enhances its credibility and trustworthiness.
- **A Diverse Selection of Cryptocurrencies:** BTCC allows customers to access and exchange a wide range of digital assets.
- **Margin and Futures Trading:** BTCC provides margin and futures trading options, allowing customers to expand their trading holdings and potentially increase their profits.
- **Proficient Trading Instruments:** such as real-time market data, trading charts, and

technical analysis indicators. These tools can help users make informed trading decisions.

- **Security Measures:** BTCC values security and uses a variety of safeguards to secure customer payments and information. This includes two-factor authentication (2FA) and cold storage of cryptocurrency assets.
