What is Pepe Unchained (\$PEPU)?

Pepe Unchained (\$PEPU) is an enhanced version of Original Pepe, utilizing Layer 2 technology to double staking rewards for all stakers, especially benefiting presale buyers. As per the website, "Pepe Unchained is the future of meme coins- a Layer 2 blockchain built for speed, security, low fees-and of course-Memes."

Simply put, Pepe Unchained is improving upon the traditional Ethereum Layer 1 by improving speed, lowering fees, and creating \$PEPU, a native token that powers the ecosystem.

Pepe Unchained (\$PEPU) Key Features

The key feature of Pepe Unchained (\$PEPU) lays on its layer 2 blockchain. Layer 2 refers to a secondary framework or protocol built on top (an existing blockchain (Layer 1), such as Ethereum). This secondary layer improves the scalability, speed, and efficiency of the primary blockchain, making it possible to handle a higher volume of transactions at a lower cost.

Benefits of Layer 2 for PEPE Unchained

1. **Double the staking Rewards:** By offloading transactions to PEPEUNCHAINED Layer 2, PEPE Unchained can offer significantly higher \$PEPU staking rewards. The reduced operational costs and increased efficiency mean more rewards for you, Ser.
2. **Faster Speed:** Transactions on Layer 2 are processed much quicker than on Layer 1. This means you can stake, trade, and interact with PEPE Unchained at lightning speed.
3. **Lower Fees:** With fewer transactions clogging up the main Ethereum network, gas fees are substantially lower on Layer 2. This means more of your investment goes towards

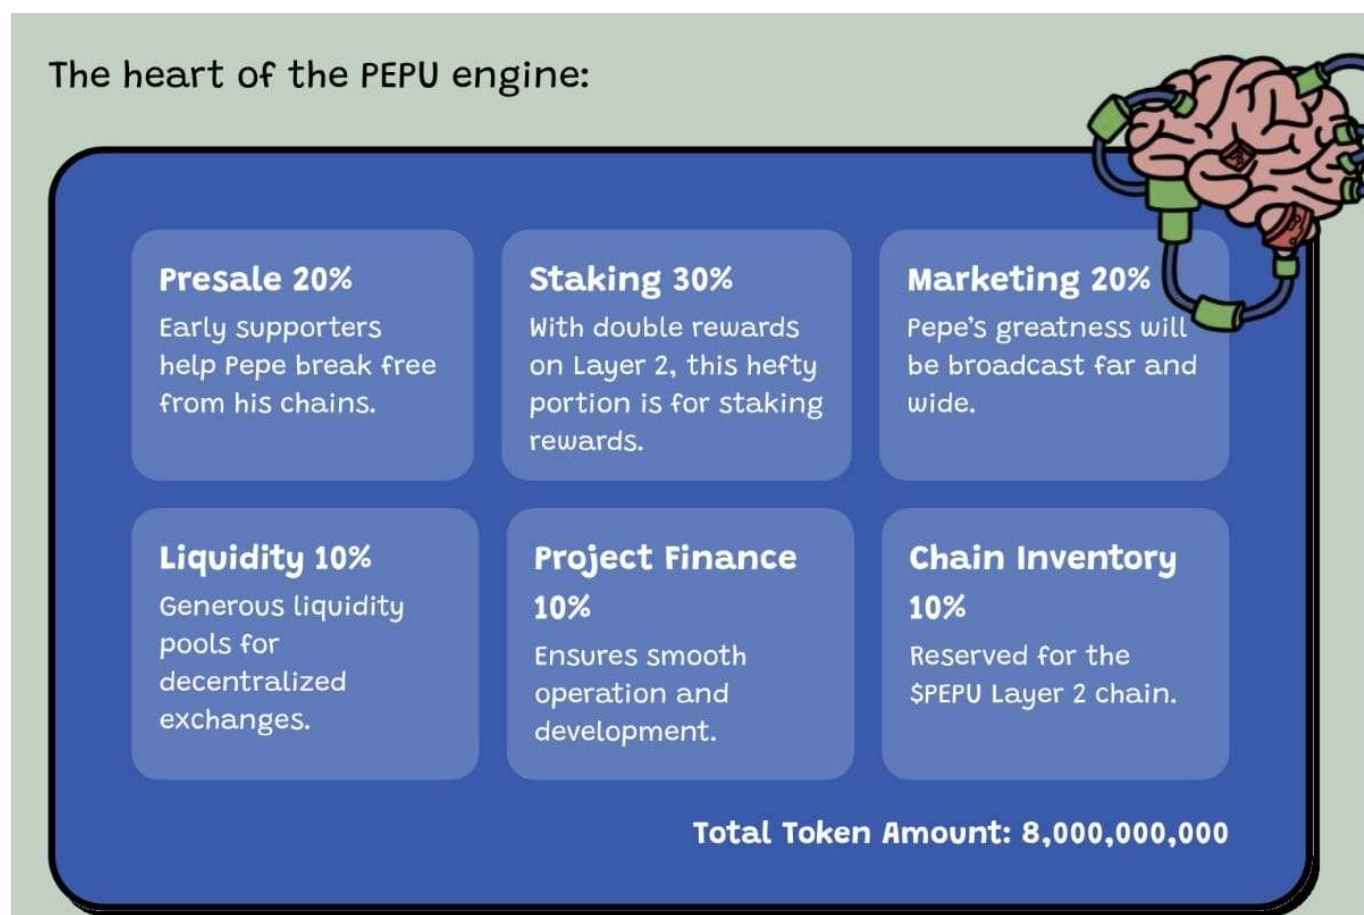

earning gains rather than paying for transaction costs.

Pepe Unchained Roadmap

The roadmap of Pepe Unchained includes 3 steps, showing how the ambitious goals of the project will be realised.

Step 1 - Make Pepe Great Again

The time has come for Pepe to take a giant leap into his ultra-based future. By inseminating the world with L2 technology, Pepe Unchained becomes an absolute Giga Brain. He's now ready to release his rewards.

Step 2 - Coin Eruption

With L2 technology, and a burning desire in his loins, Pepe Unchained erupts during presale, offering DOUBLE the staking rewards. This is an explosion of Pepe juice all over the blockchain.

Step 3 - Kill Original Pepe

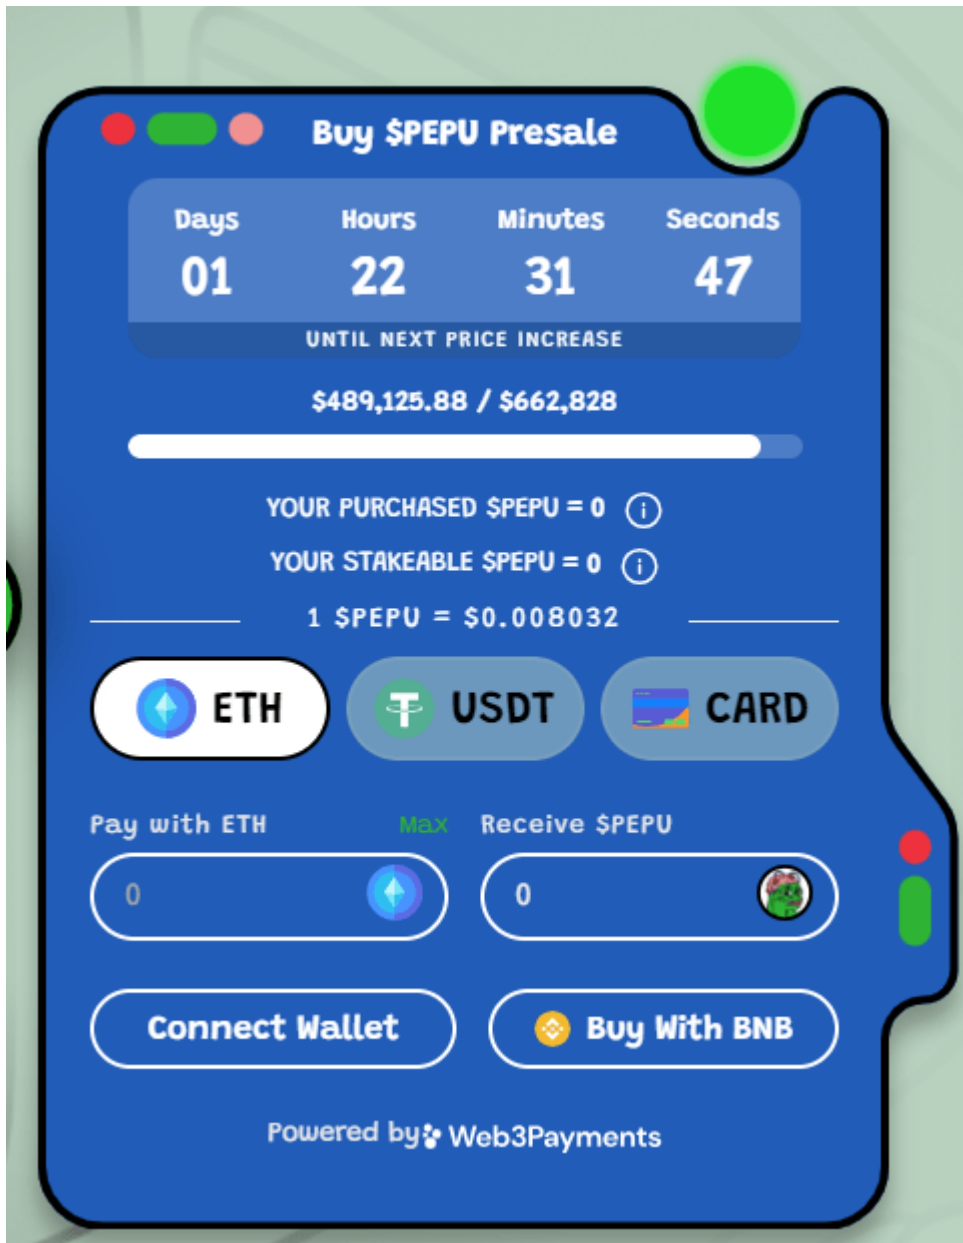

Original Pepe was cool, but he lacks the Giga Brain and layer 2 tech. The future belongs to Pepe Unchained. Will they be friends or frenemies? only time will tell.

Pepe Unchained (\$PEPU) Staking

Due to its choice to build a home on a layer-2 blockchain, Pepe Unchained will be able to offer higher staking rewards. The low operational costs and increased efficiency allow investors to earn more passive income from their \$PEPU holdings.

Generous staking rewards is regarded as one of the standout features of the Pepe Unchained presale. Staking \$PEPU during the presale can earn dynamic yields of over 16,000%.
