## What is Solciety (\$SLCTY)?

Aiming to address the corrupt, dull, and economically inept politics of today, Solciety is a new Solana-based meme crypto emerging as one of the fastest growth projects. Solciety's combination of political, acute satire, and meme culture has made it outperform other meme coins in the competitive crypto world.

While other themed assets struggle with utility, Solciety stands against uninspiring meme assets, pitiful returns, and crappy politics. As the Republican candidate, Donald Trump, endorses and courts the crypto community like a prospective bride, Solciety has become the "degen's political party," and defies the political status quo and unsatisfactory state of the cryptosphere in 2024.
