## TON Price Poised for Major Breakout

Amid heightened price volatility, the altcoin exhibits strong potential for a bullish breakout. The MACD indicator showcases a declining red histogram, signaling a surge in buying pressure. This, coupled with the likelihood of a bullish convergence, points towards a favorable outlook for TON in the coming week. The Toncoin price is poised for a major breakout, as it has successfully retested its key support trendline and formed a symmetric triangle pattern on the 1D chart. Amid heightened price volatility, this altcoin presents a strong bullish case for investors. Currently trading at \$6.784 with a circulating supply of 2,516,682,453 TON tokens, Toncoin stands as the 9th largest [cryptocurrency](#) by market capitalization, valued at \$1.704 billion.

The Moving Average Convergence Divergence (MACD) indicator shows a declining red histogram, signaling increased buying pressure for Toncoin. With a high likelihood of bullish convergence, the indicator predicts a positive outlook for the altcoin this week. Additionally, the SMA indicator has experienced a bullish convergence on the 1D chart, further reinforcing bullish sentiment for Toncoin's price in the crypto space. Investors should keep a close eye on Toncoin's price action as it nears a potential breakout.
